ADEOLA OMOTOYINBO ISAIAH

Full-Stack Developer

Ibadan, Oyo State, Nigeria | adeolaisaiah01@gmail.com | 08089386770 | github.com/isaiah973

PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience building dynamic, user-focused web applications using **React.js, Node.js, Express.js, MongoDB, and MySQL**. Proficient in both frontend design and backend logic, with a strong grasp of RESTful API development, responsive UI frameworks, and database integration. Combines technical skill with excellent communication and problem-solving abilities. Brings strong teamwork and ethical discipline developed from prior professional experience in counseling and education.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Bootstrap, Axios, REST API Integration, Responsive Design
 Backend: Node.js, Express.js, MongoDB (Mongoose), MySQL, JWT Authentication, API Security, CRUD Operations.

Tools & Others: Git & GitHub, Vercel, Render, Postman, NPM, VS Code, JSON, Deployment, Debugging
 Currently Exploring: TypeScript, Next.js, Redux Toolkit, Cloud Hosting (AWS, Netlify)

PROJECTS

■ Voting and Ranking System

 React.js, Tailwind CSS, JavaScript
 Built a frontend web application that allows users to vote and dynamically rank contestants in real time using React state management and interactive UI components.

■ Login & Registration System

 React.js, Tailwind CSS, MongoDB, Express.js, JavaScript
 Developed a full authentication system featuring secure login and registration, form validation, password hashing, and JWT-based authentication.

■ E-Commerce Website

Vanilla JavaScript, HTML, CSS
 Created a fully functional store with product listings, shopping cart, and checkout logic using only vanilla JavaScript. Implemented local storage for cart persistence.

■ Fullstack E-Commerce Website

Technologies: React, Tailwind CSS, Node.js, Express, MongoDB, JWT, Axios

Project Highlights:

• Developed a **responsive fullstack e-commerce application** with complete user authentication (signup/login) using JWT.

• Implemented **product catalog** with dynamic listing and detailed product pages.

• Built **shopping cart functionality** allowing users to add, remove, and update product quantities.

• Integrated **checkout flow** with order summary and mock payment process.

• Designed UI using **Tailwind CSS** for a modern, mobile-friendly interface.

• Managed backend APIs with **Express and MongoDB**, including secure CRUD operations for products and users.

• Handled **state management** with React Context API for cart and user authentication.

• Implemented **real-time feedback** using notifications/toasts for actions like "added to cart" or "login required."

Key Achievements:

• End-to-end implementation of **fullstack functionalities**, demonstrating proficiency in front-end, back-end, and database management.

• Project showcases ability to **build production-ready web applications** from scratch.

PROFESSIONAL EXPERIENCE

Freelance Frontend Developer — Self-Employed (2022 – June 2025)
Designed and implemented interactive web interfaces for small businesses using React.js, Tailwind CSS, and Bootstrap. Collaborated with clients to translate mockups into functional code.

Backend Developer — Freelance (June 2025 – Present)

Developed backend APIs for authentication, data handling, and CRUD operations using Node.js and Express.js. Integrated MongoDB and MySQL databases for scalable performance.

EARLIER PROFESSIONAL BACKGROUND

Counselor — Federal Road Safety Corps (FRSC) (2017 – 2018)
 Provided behavioral counseling and professional ethics training to officers and marshals, improving team morale and productivity.

EDUCATION

University of Ibadan — B.Ed. in Special Education and English (2012 – 2016)

PERSONAL DETAILS

• Age: 35
 • Location: Ibadan, Oyo State, Nigeria • Languages: English (Fluent)
